L.E. “Gene” Durand Center

The 22,000 square foot multi-purpose facility opened in late 2008 and was designed to meet a variety of longstanding local needs. The Durand Center has the capacity to host a banquet for more than 400 guests or a lecture-type meeting for nearly twice that number, while simultaneously hosting separate events in six other meeting rooms for more than 175 additional people.

Like the remainder of the facility, the large banquet hall features the latest technology. Presenters at the head table and their presentation materials will be shown on three large screens, and design features allow events to be broadcast live on local television.

Amenities include:

- * Wireless Internet Access
- * High end AV systems
- * Live television feeds
- * All rooms include projectors or LCD panels and support all forms of audio-visual needs
